# ODOYO

## PROFESSIONAL SNAPSHOT

A skilled Front-End Web Developer specializing in responsive, user-focused interfaces and modern web technologies. Adept at transforming designs into high-performance, accessible web experiences while collaborating closely with cross-functional teams. Continuously explores emerging trends and tools to deliver innovative, scalable, and engaging digital solutions.

## EXPERIENCE

### FRONT END WEB DEVELOPER

June, 2025 - Present

### FREELANCE

- Learnt and implemented the use of Google sheets and Javascript code to collect data as opposed to using a back end server.
- Used HTML, CSS and Java Script to code websites with interactive UI elements. Hence enhancing the user experience.
- Coded various projects which include, a bakery website, a portfolio website and a functional calculator.
